CONEXION WITH NATURE

By the artist
Cathy Cocat

Treat yourself to a unique moment in Valencia's Parque Central Garden: a guided meditation in the heart of living nature, followed by a personalized work of art and a message born from your connection with nature.

Solo, as a couple, or in groups of up to 3 people

A walk through the Garden

You'll take a gentle stroll through this peaceful garden, just walking and discovering it's trees, flowers.

A moment of guided meditation

No experience is needed. In a short session of about ten minutes, you'll engage in a quiet connection with a plant and another natural element.

Bespoke work of art, Message

After the meditation, I'll create a hand-drawn piece inspired by your experience.

The final artwork is presented on a wooden stand, ready to hang.

- With a certificate of authenticity

The creation is accompanied by a message drawn from your experience with nature and meditation. A few chosen words, on the front or back, give it quiet resonance.

Dimensions: 3.94" (W) x 10.24" (H) x 0.16" (D) (10 cm x 26 cm x 0.4 cm)

Please allow 2 business days for the final piece. I'll adapt to your schedule to hand it to you personally.

I'm a French visual artist and performer. I divide my time between Paris and Valencia, a city whose warmth, people, and gardens captivated me.

I draw inspiration from the metaphysics of the living, exploring the boundaries between the visible and the invisible. My practice seeks to awaken new ways of connecting with the living world.

PROPOSAL I: €80 | PROPOSAL II: €120
